EDUCATION

ADDIS ABABA SCIENCE AND TECHNOLOGY UNIVERSITY

Bachelor's degree in Electromechanical Engineering
2016-2021

SUMMARY

I've immersed myself in programming as a self-taught enthusiast, driven by an unchanging passion ever since discovering my passion for it. Over the past two years, I've independently pursued this field, overcoming various challenges along the way. Now, I eagerly seek an opportunity to further cultivate my skills within a collaborative team setting, contribute meaningfully to projects, and continue my journey of learning and growth.
